Hi Staff,

At approximately 1500hrs on today's date I had an opportunity to speak with [redacted] (President of the Ottawa Gatineau Hotel Association) in order to provide him with the PLT email address for concerns that area hotels might have or issues they may incur over the weekend.

He had just had an hour long conversation with two individuals from two of the convoy "captains", who he identified as [redacted] (possibly from Aylmer) and [redacted] (possibly from Smiths Falls)

He indicated that while he would very much love to see hotels filled this weekend due to the impact covid has had on their businesses, that after his conversation with the captains he had some real concerns.

He listed the following as his main concerns based on information communicated to him by the captains

- Expectation of ½ million people attending city and intention of completely "shutting it down"
- They do not plan on shutting down emergency routes
- He suggested that we (emergency first responders/police etc) would need to "have our eyes open" as there extreme right wing individuals attending who are intending on causing violence
- Truck demonstrator participants are concerned that they are losing their agenda to the issues of Freedoms and that the purpose is straying away from what it was intended to be
- He suggested that we "prep for the worst and bring in the troops"

Steve can be reached at [redacted] and [redacted]

If you have any other questions I don't mind reaching out to him; and he has my number and stated he would call if he received any further intel.

Thanks
Meg
